

CSC - Role of the general commission member

The volunteers and staff of the SSPP Christian Service Commission use our time, talent and treasure to serve those in need. This is done through our own actions and our service on the Christian Service Commission.

Our primary role on the commission is the financial oversight of SSPP resources to those in need. It is each of our responsibility to prayerfully distribute resources where we feel we are called. Often we are asked to leverage our experience and provide opinions and gather research around specific donations, amounts or other ways to provide assistance

We all bring a great deal of talent to this commission. Another responsibility we share is to collaborate amongst all commission members to better understand how we can serve others. This collaboration helps as we are advocates for the needy and advocates for the agencies that serve others. Networking and collaboration are vital so that we realize the needs of the broad community and how SSPP can be effective in our response.
